Aurecon secures tender design on Sydney light rail project

Aurecon has secured the tender design of the proposed light rail project connecting Sydney’s CBD to the south east.

Aurecon has very strong and, importantly, local know-how delivering major light rail projects in Sydney, including the Inner West Light Rail Extension and the Sydney Light Rail planning study.

Combined with Parsons Brinckerhoffs world class light rail expertise and our well-established client relationships with Transport for New South Wales and McConnell Dowell, were confident that our team can deliver a sustainable light rail solution capable of facilitating Sydneys rapid urbanisation and economic growth for many years to come.
